

Joint Replacement Fellowship

We have an established track record and reputation in CAS and minimally invasive hip & knee joint arthroplasty.

Our Fellowship for lower limb arthroplasty is based at Bradford Teaching Hospitals NHS Hospitals. We appoint an accredited surgeon (FRCSorth or equivalent) for a period of 6 months.

The post holder undertakes research under supervision of Mr D.L. Shaw and Mr W.H. Kluge who both have a special interest in computer assisted and less invasive joint replacement surgery.
